Noted handgun authority Max Prasac is a regular contributor to Gun Digest the Magazine, Modern Shooter, Boar Hunter, Bear Hunting and American Hunter magazines. He is the author of Big-Bore Revolvers and the Gun Digest Book of Ruger Revolvers.

Excellent book for the handgun hunter as well as lovers of big bore revolvers. Includes detailed information on the cartridges applicable to hunting as well as numerous accounts of their use in the hunting fields by the author and a number of other experienced hunters. This book will be very useful for the beginner looking for a good overview of the necessary equipment, yet there is enough information here to entertain the veteran as well. Especially compelling is the excellent comparison between the 45 Colt and 44 magnum, one of which will almost certainly end up in every handgun hunters battery at one point or another. Although the choice between the two isn't made any easier there is a lot of solid information to help you make a decision. If you have an interest in heading afield with a revolver, this book belongs on your bookshelf

great book, it's full of good info on hunting revolvers and of the accessories and bullets and loads to go with them. photography is awesome and it is really a well done book. it's great to see all the contributors and their hunts as well. Tim above has decided he can't play with the big boys and has an axe to grind, or maybe he's just mad his wife won't let him buy one, but he couldn't be more wrong. this book is well worth the purchase and time to read. very very well done!

Fantastic new book from prolific handgun writer Max Prasac! I downloaded the digital version from Gun Digest and have been in it constantly over the last few days. My print copy came in the mail this morning. First, it is all color and it is filled with sixgun, leather and hunting pics. It is printed on heavy paper and has a great feel in the lap, which is perhaps an insignificant detail for some but important to me when I'm enjoying a good sixgun book. It is beautifully laid out and well written. There is a great forward by hunting legend Larry Weisuhn. Prasac is a compelling writer but also calls on many of his peers to contribute to this fine publication on hunting revolvers. The author taps his vast knowledge and experience to produce the many excellent passages on guns, loads, optics and leather. His first two books are also excellent but this is certainly his best work to date. If you love hunting with revolvers or just revolvers in general, this book is a must-have for your library!

As good a volume as has ever been published on the subject of hunting with big bore handguns, written by an expert on the subject. Max is routinely enlisted by handgun manufacturers to test new offerings before they are put on the market, because of his skill and experience. The information in this book is invaluable to handgun hunting fanatics, and the photography is stunning. A must have for ardent handgun hunters! Mike Holmes Mike's Texas Hunt-Fish.com

If you think you might want to hunt with a revolver, then this is the book to study. I considered hunting with a revolver before I read it, but I have learned so much from Mr. Prasac that I realized such a hunt might have been a disaster. I have completely reconsidered what I was going to do before. If you will hunt dangerous game, then consider this book to be required reading. His book on Big Bore Revolvers is also very useful, with just a little overlap.

there are very few books dedicated to handgun hunting, however, Mr. Prasac`s "Hunting Revolvers" completely covers the hunting of medium to big game with revolvers.....well done Max Prasac.....

If you are into or considering handgun hunting, this is a must have book. Lots of great photography, detailed info on loads, guns, shot placement, terminal ballistics, and real life hunting examples. A great read.

Awesome book!
