Tom Garrison (Ph.D., University of Southern California) was an inspiring professor of Marine Science for over 47 years at Orange Coast College in Costa Mesa, California -- one of the largest undergraduate marine science departments in the United States. Dr. Garrison also held an adjunct professorship at the University of Southern California and won multiple teaching and education awards during his career. He was a founding member of the Consortium for Ocean Science Exploration and Engagement, wrote a regular column for the journal *Oceanography*, and enjoyed writing for *National Geographic* magazine. Dr. Garrison was an Emmy Award team participant as

writer and science advisor for the PBS syndicated Oceanus television series, and writer and science advisor for The Endless Voyage -- a set of television programs in oceanography. His widely used textbooks in oceanography and marine science are the college market's best sellers, and 42 years of teaching allowed him to pass his oceanic enthusiasm to more than 65,000 students in his career.

It is a spectacular resource for the study of oceanography, clearly explained and illustrated. It has the information and references necessary to understand and learn. It arouses the interest to continue investigating and exploring the ocean.

I hated this class but I did find the book enjoyable to read. Very interesting information and I did not find it difficult to understand.

As far as book quality it's really top notch. Very pricy, but all the nice pictures and color have to be paid for somehow I suppose.

great textbook! one of the best I have used in some time.

Did not know writing a review was a thing

Came in great condition and I love it

The book arrived when they said it would in perfect condition! It was brand new and had never been opened. I also was happy that the book was offered for such a low price! For the same price I paid for the new version on here, I would have gotten a used book with highlighting and marks all over it at the school bookstores. I am definitely ordering my books from here again!

same as the history book I got
