Customer Reviews

“The book is, however, extensively laden with scholarly apparatuses, with bibliographies and notes at the end of every chapter, an extensive glossary, index, and basic and extended tables of contents. This gives the book much utility as a reference work, allowing for quick and easy navigation to relevant subject areas, and these are an enormously value-added benefit to the text. It is definitely a book that deserves a spot on the shelves of any library that has a focus on fashion, business, art, or any combination thereof.”
