Jack and Annie are off on another adventure! This time they are sent to ancient Greece, where a very important event is taking place. Join them as they race against time and witness the very first Olympic games!

The authors have an astonishing track record for inspiring readers. Highly acclaimed by parents, teachers, and especially kids, these books have an astonishing track record for inspiring readers. Highly acclaimed by parents, teachers, and especially kids, these books have an astonishing track record for inspiring readers. With their strong characters, imaginative plots, and just the right dose of history or science, it's no wonder kids love Magic Tree House books.

My son, nephews, and nieces have all enjoyed this series. When I began reading with each child they were barely able to read a chapter without getting frustrated and pushed to try new words. Then by the time they reached the tenth book in the series they were all flying through with ease. This series is a wonderful introduction to fantasy and critical thinking.

great thanks

My seven year old son loves EVERY SINGLE one of the Magic Tree House books. He is determined to own/read all of them.

Arrived on time, easy to read. My daughter finished it in about 30 minutes!

Stories are written for kids to love! My daughter can't put the book down once she starts reading it. We are working on getting the entire series.

Magic Treehouse books are always a favorite. Our son was inspired to learn to read much more complex texts after reading many from this series. His reading ability took off exponentially!

good

My boys loved the book, they found it interesting and they wanted to read the next one. Magic Tree House books are always awesome
