Linda Westwood is a #1 Best Selling author of various books about weight loss, dieting, exercise programs, and everything nutrition. In her books, Linda provides daily action plans and fantastic advice on how to lose weight, burning fat in those hard to lose areas, better eating habits, morning rituals that lead to a healthy body, and so much more.

The Westwood book is packed with helpful information for dieters and health conscious consumers. The book explains that juicing is an extraction process which provides consumers with all of the nutrients and fiber from the whole fruits and vegetables. The juicing itself provides both the

macronutrients (proteins, good fats and carbs) plus the micronutrients like magnesium, zinc and many others on the Periodic Table. A strength of the book is that the author provides a vitamin breakdown for each food. For instance, vitamin A is found in vegetables like the superfood bok choy, broccoli, carrots and kale. Vitamin A is also found in fruits like grapefruit, melon or tomatoes. Nutrients like pantothenic acid are found in vitamin B5 which promotes good cholesterol (HDL). The book provides examples of how to discharge toxins from the body. Sauna baths are one method. Bentonite Volcanic Ash is another way of discharging toxins by binding positive and negative charges in order to flush them from the body. The author explains why organic fruits and vegetables are superior to products with non-organic additives. There are ample recipes provided for breakfast, lunch, dinner and snack juicing. The book even explains the pros and cons of different types of juicers like the centrifugal models. Overall, juicing by Westward is an excellent addition to your health and nutrition home library. The book is a solid value - period.

This book is a blessing. I'm actually trying to lose eight right now and we're trying to lower my dad's blood pressure. and I think these recipes will do the work splendidly.

Before I didn't understand what was the hustle about juicing diet, however, after I've read this book I see the potential of juicing for losing my weight and the benefits for my health. I felt so confused to even start juicing, but thanks to step-by-step explanation in this book on which fruits and veggies to choose and which juicer to buy, I now feel much more confident to start with it. The recipes of different juices at the end of this book are super helpful.

This is a truly wonderful book, written by someone who really cares about this program. For a book of this price, it is very long, over 130 pages; full of plans, advice, tips and loads of menus. There is too much in it to try and describe it all. To cleanse your body and to lose some weight, THIS IS THE BOOK FOR YOU.
