My son LOVES this book! He's really into animals, especially reptiles. He's probably read this book front to back a dozen times already. Now he's constantly telling me facts about different reptiles. I highly recommend this book to anyone that has children interested in reptiles!

I bought this for my niece and she loved it! She's nine and we had a great time reading and looking through the pictures. My nephew who is only four loves this book just as much as his sister.

This awesome book was a gift for my 9-year old grandnephew! He absolutely loved it and has spent hours reading about the reptiles.

This book is AWESOME!! The pictures are beautiful and very educational.
