Equine Fluid Therapy

Synopsis

Equine Fluid Therapy is the first reference to draw equine-specific fluid therapy information together into a single, comprehensive resource. Offering current information unique to horses on the research and practice of fluid, electrolyte, and acid-base disorders, the book is designed to be clinically oriented yet thorough, providing detailed strategies tailored to equine practice. With information ranging from physiology and acid-base balance to fluid therapy for specific conditions, Equine Fluid Therapy covers fluid treatments in both adult horses and foals, highlighting the unique physiologic features, conditions, and differences in foals. Well-illustrated throughout, the book begins with an overview of the physiology of fluids, electrolytes, and acid-base, then moves into practical information including equipment, monitoring techniques, fluid choices, and potential complications. A final section offers chapters on blood transfusions, colloids, parenteral nutrition, and hemodynamic monitoring. Equine Fluid Therapy is an essential reference for equine practitioners, specialists, and researchers.

Equine Fluid Therapy is an essential reference for equine practitioners, specialists, and researchers. Key features

- Provides the first equine-specific reference on fluid and electrolyte therapy and acid-base disorders
- Brings together information from a wide variety of sources into one complete volume
- Presents detailed yet practical information on research and therapy
- Includes information relevant to both adult horses and foals
- Edited by two leaders in the field, with chapters written by prominent experts
- Offers essential information for equine practitioners, researchers and specialists in the areas of critical care, internal medicine, anesthesia and surgery

Very easy to read and look up a specific issue or read through a whole chapter. I am currently in a referral practice where it lives on my desk with a stack of other veterinary texts and it gets used the most by myself and the other vets in the office.

Excellent product and seller!! Absolutely recomendable! Thank you!
