## Customer Reviews

Definitely get this if you love all kinds of creepy stories!

The stories are good and creepy. I would recommend if you into that kind of thing and check Mrcreepypasta's you tube channel. He's the one that edited the book together. He reads all sorts of stories like this so do that to.

I'm not a big fan of short stories so I almost ignored my friend's recommendation to read this. I'm glad I gave it a shot instead. The stories are well crafted tales of horror and mayhem that could give Lovecraft nightmares. This collection is replete with ancient gods, cursed artifacts, psychopaths, ghosts, and dark magic. My favorite is "Jeff the Killer." A serial killer falls prey to a supernatural being that is far more adept at murder. This book has convinced me to put my disdain for the short story aside.

Very creepy stories. I love it. Super creepy. Not for the faint of heart... or stomach... or anything else

This here is a collection of works by some of the best horror authors on the internet. Fantastic read for those who enjoy getting spooked.

This is a pretty good collection. It's not really so much "urban legends" as good sci-fi/horror/suspense. Almost all the stories are at least good and some are excellent. I wouldn't say I was "haunted" or felt the need to "unread" any of it, but good for a few chills.

The stories started out being interesting and the ones further in started fading. The writing in some was kind of amateurish, and the plots pretty repetitive. I was thinking that the stories would be a lot more disturbing than they actually were. Creepypasta is a pretty disturbing site. Disappointing.

Creepy, loved every page.
