## Customer Reviews

Nora Roberts is the #1 New York Times bestselling author of more than 200 novels. She is also the author of the bestselling In Death series written under the pen name J. D. Robb. There are more than 400 million copies of her books in print.

I LOVE Nora Roberts. Her books opened my life in a whole new way - but - I have to say that for some time her writing sounds the same. It's almost like she uses the same book, switches it up a little, and adds new character names. Not all of them, but enough so I've noticed, and this book is one of them. She redeems herself in other books, but I used to buy her books without even reading a sample. I don't do that anymore and I feel sad about that. Thank you.

This is such a great book, that I look forward to going back and reading these stories again like some that I already have, and I am impatient to read the rest of Nora Roberts' stories right now. Hot, Hot, Hot, love scenes, a well written, creative and intriguing story about family plus inventive, vivid

characters, all on top of seriously wonderful love and romance. Each story is about one key person, usual in a family, or close group of friends, they are linked through intricate, messy links and it's almost like a movie you get the privilege of witnessing about these people's powerful, emotional, and often times painful journey towards falling in love. Roberts is one of my most favorite author's, and she doesn't disappoint in this series. Her unique style and classy, yet moving love scenes, paint a beautiful picture that leaves a person longing for something similar for themselves. All of that is combined into this fantastic series and make this book a "must-have"!!!! I didn't want to set it down....seriously!! Lol I was nodding off over my book on several different occasions. Worth the price and more to have a Nora Roberts book in your library collection!!!!!!

I have always been a fan and have not read any of Ms. Roberts books in awhile. However, the Mac Gregors were always my favorite. I was curious to learn how the Mac Gregors came about. It was a short read but I wanted more. Her characters are always interesting. She captured the essence of this romance in a few chapters. I look forward to another very soon.

Short but very romantic. Roberts 18th century lead characters are of their time, thus do not expect feminist ideals, but uber-traditional male and female roles. Once I got over this, I enjoyed this short, feisty read.

this is obviously an early work, much more in the "bodice-ripper" style than later NR books. The later McGregor books are much better.

I have always loved the MacGregor family. they are loving, loyal, feisty, boisterous and fearless, but most of all....they are the most stubborn Scottish clan I've seen. They are also very spirited, and always filled with an undeniable passion, and most of all they have truly honorable hearts. I love going back to read about the first generation of MacGregors that came to America to seek a better way of life. After reading this story, I have no doubt that Daniel takes after his Great-Aunt Serena with her match-making and conniving ways. ;)

This was a good prequel to the MacGregor series. It was very interesting to get a look at the previous history of the MacGregors. I have read and reread these series, so I found this to be very intriguing.

I like listening to the book. I read the book. Nora Roberts is one of the best writers in the world. They have some good writers....
