Customer Reviews

Bought this for my 5yo son who is endlessly curious about the world around him. This is a beautiful book that he is happy to sit and read for long chunks of time. Pictures are interesting enough that he can look by himself, and then we can read over the details and teach him ourselves as well. Really enjoy this series, have several already. Love DK. Would recommend highly.

Very colorful and easy to understand for a child. My 4 year old loves looking at this Atlas. I bought it because I homeschool and will need it to teach Geography.

Oh my goodness this is just an awesome book for children and adults. The book is very nicely organized and very visual. I purchased the book for my 8 year old nephew and he loves it. Everytime I visit him I always end up reading it. I love this book.

You won't find a better atlas for young children that can be used in so many ways to learn about the world and all its parts. What you see during the LOOK INSIDE! is what you see for every continent. Great for geography, and greater still for understanding the world and the people who live in different places and how they live there.

Easy to read, pictures on the maps are helpful in understanding the Country.

high quality book, durable and would buy from seller again

I found this on .com looking for an interesting Atlas for my daughter, who is 6 and 1/2. She loves looking at the maps, and the pictures of people and the different cultures around the world. I love how it is inspiring curiosity about the world in my daughter.

Full of good information. Kids like it.
